

Fabrication

Iron Works
a division of **PCi**
Roads

Iron Works, a division of PCiRoads, meets the highest industry standards in custom steel fabrication. We can customize our service to meet your project needs and time requirements.

We specializes in fabrication of new ductwork, conveyers, catwalks, handrails, stop logs, gates, grating, sheet metal and many other steel structure items for variety of industries.

Superior restoration services and application of any coating or lining can be done in our paint shop that has direct access to rail and truck lines.

State-of-the-art equipment and skilled tradesmen give us the ability to accommodate large infrastructure projects, plant maintenance shutdowns, and to quickly respond to critical situations.

The PCiRoads fabrication division, IronWorks, is a custom steel fabricator located in Becker, Minnesota. Our goal is to satisfy and respect our customers needs. We know the importance of listening to your concerns while completing projects correctly and in a timely manor. Your information is combined with our constant drive to value engineer projects, helping us be more efficient and finds ways of completing projects with cost effective methods.

IronWorks is prepared to be your one stop shop, with the capability of taking projects from start to finish. Whether it's a large project, routine maintenance, material handling equipment, ductwork, structural steel, aggregate equipment, concrete equipment, or asphalt plant equipment, we can handle the job.

IronWorks has an on site blasting and painting operation with the ability to handle specialty coatings and linings. Combine this with our assembly department and we can complete projects without having to bear costly transportation expenses.

We pride ourselves on a flexible manufacturing style to help schedule all projects, big and small, yet have the ability to react to time critical emergencies to get you up and running. Our constant goal is to build respectful relationships with our customers so they know that with one call, they will be taken care of within their schedule and budget.

IronWorks is an approved supplier for Minnesota, Wisconsin, Iowa, North Dakota, South Dakota, Kansas, Missouri, and Florida.
